

AVAILABILITY OF NON-MAST MANUFACTURED PRODUCTS

Mast distributes a range of products from other manufacturers to complement its portfolio for diagnostic and research applications.

Each manufacturer defines the availability of their product range and where Mast does not hold stock of these products, they are available to SPECIAL ORDER subject to the following lead times and Minimum Order quantities.

Please note that not all products are available in all countries.

To check availability, please select your country from the list on the website, or contact Mast Customer services on +44 151 472 1444
